RE: *State of Oklahoma, et. al. v. Tyson, et. al.*
Civil Action Number: 05-CV-0329-GKF-SAJ

Dear Leslie:

As mentioned in my letter dated May 14, 2008, it was not logistically possible to get all of the expert correspondence and considered materials on the hard drive that we shipped to you on May 14, 2008. Although that hard drive contained the vast majority of the materials considered by the State's expert witnesses, we will be providing you with supplements of materials for some experts. In addition to the correspondence and considered materials contained herein, Bullock, Bullock & Blakemore will be providing you with some additional supplements under separate cover, and our office will be sending you a supplement of materials that pertain to Dr. Olsen later this week.

The materials enclosed pertain to the following experts: Dr. Caneday, Drs. Cook and Welch, Mr. King, Dr. Lawrence, Dr. Taylor and Dr. Wells.

Please let me know if you have any questions.

Sincerely,

Claire Xidis
